

The first modular seal

with integrated installation control for a maximum installation security

GKD – convincing at first sight
Yellow. Safe. Installed.

The modular seal with integrated installation control

Modular seal GKD

Article code:
GKD xxx

FEATURES AND TECHNICAL DATA:

- integrated installation control – no torque control key required
- no retightening required
- nuts moulded in pressure plate, therefore no loose parts
- high quality rubber in EPDM or NBR
- all metal parts made of high quality stainless steel V4A (AISI 316L)
- optimized geometry
- tightness up to 5 bar approved by Lloyds register
- made in Germany

The modular seal GKD from Hauff-Technik is the ideal sealing for pipes in core drilled holes or wall sleeves. The integrated installation control is giving a high installation security. Thanks to the modular structure the GKD is suitable for all kind of pipes and diameter combinations.

Have the installation procedure in view at all time with integrated inspection window
Yellow. Safe. Installed.

GKD – installation security inclusive

GKD – simply quicker installed

The combination of a optimized bolt geometry, a special rubber and the Hauff lubricant ensures that the modular seal is installed after a one-time tightening. Your advantage – no waiting time and no time consuming repeated retightening

New:

1. installation time

Until now:

1. installation time
2. waiting time
3. additional installation time
